PROFILE

Professional front-end developer with over 12 years experience across a diverse range of industries. Passionate about bringing client visions to life with clean, efficient, and well-maintained code. Committed to keeping pace with new and evolving web technologies.

EXPERIENCE

2021-Present

FRONT-END WEB DEVELOPER/ CONTRACTOR

Fishtown Analytics/dbt

Converted dbt's FIGMA prototype into a Jeckyl static website using current web practices built with HTML, CSS, Liquid, YAML and JavaScript

Key Achievements

- > Implemented responsive design using Flexbox and CSS Grid with semantic HTML and CSS best practices.
- > Took project from scoping requirements, development, and testing through project launch
- > Deployed project with GIT source control
- > Scoped, estimated, communicated and tracked project progress with the project management team.
- > Built page templates using Liquid, CSS, and Javascript

2019-2022

WEB DEVELOPER

MCSP, Massachusetts Coalition for Suicide Prevention

Supporting this non-profit with website services from creation design, database implementation, custom front-end development, full-customer service website and hosting support

Key Achievements

- > Custom WordPress theme development
- > Full stack website services
- > Reliable one-on-one client support
- > Security maintenance

2009-2020

FRONT-END WEB DEVELOPER

IDG, International Data Group Inc.

Managed a variety of complex projects while collaborating with editors, publishers, administrators, designers, backend developers and stakeholders. Daily tasks included Agile scrums between department team and senior management.

Key Achievements

- > Led front-end development for several key projects, such as Computerworld's Best Places to Work, Salary Survey and CIO-100
- > Spearheaded development for custom HTML email templates and Solution Center Marketing Campaigns built with Liquid Ruby code
- > Maintained and developed new features for the IDG US suite of sites, including Computerworld, Macworld, PC World, and more
- > Provided front-end development on medium to large-scale projects
